

PRODUCT DATA SHEET

Product **AFF® Premium Cherry Powder**

Description **AFF® Premium Cherry Powder** is made from fresh Australian sweet cherries (*Prunus avium*) varieties, including Bing, Sweetheart and Stella sourced exclusively from New South Wales, Victoria, South Australia and Tasmania,

AFF® Premium Cherry Powder has a high antioxidant capacity (Total Red Colour of approximately 150mg/100g) and is inherently rich in the deep red antioxidants (polyphenolics, flavonoids, anthocyanins) that have been reported to help prevent some cancers and cardiovascular disease, and relieve arthritic pain and inflammation.

The red colour, rich flavour and dispersibility into solution of **AFF® Premium Cherry Powder** make it suitable for a wide variety of food or nutraceutical applications, where a concentrated flavor of sweet cherry is desired and when a significant concentration of anthocyanins is required.

AFF® Premium Cherry Powder contains no added colours, flavours, preservatives, sugar, salt, or concentrates, is GMO free and contains no animal-derived ingredients. The product has HACCP accreditation and complies with current Australian Food Codes and Regulations.

Ingredients Australian sweet cherries, Maltodextrin (Tapioca)

Country of Origin Australia

AFF[®] PREMIUM CHERRY POWDER
